[View All](#)

This view is listing all the organization cars with its connection status, car info speed and driver along with the actions available on the selected cars

1 - General Actions:
three general actions available
on the cars; first is the search
to be able to search within the
list with full dynamic search
criteria, second is reloading
the list to get any updates
and finally the show selected
position which will open a full
screen map with the selected

2- Car Actions: which give you the ability to stop the car engine* , start the engine back, restart the device, read the hardware statues and finally track the car on a full screen map.
